

Sites & Cités remarquables is implementing the new international program "1 hour 1 experience", aimed at the Association's entire international network. This cycle is devoted to Cultural Heritage in its most diverse aspects: architecture, urban planning, interpretation, tourism, sustainable development...

For one hour, two experiences - one French and one international - are presented and an exchange between participants and speakers will follow.

Open to the association's members and international partners, the sessions are organised by videoconference and a French <-> English interpreting is provided.
